Software Developer with 18 years of experience with different technologies now focused on Microsoft Framework .Net in all management, processes, and software development, where the improvement, automation, and optimization of technologies in any area, whether technical, operational or administrative, have formed me as an integral professional. I stand out for being proactive, responsible, willing, and committed to meeting challenging goals in the design and implementation of IT projects.

EXPERIENCE

GlobalHitss, Standard Developer — *June, 2019-Present*

Worked in Claro Colombia's business Core that maximized and optimized the different sales channels for cellular phone and local telephony for all commercial agents within this important telecommunications company. This business core is being implemented in more than 5,000 call centers throughout the country using the latest technologies.

Tech Stack: Angular, Visual Basic .Net, C#, Visual Basic 6, Oracle, Sql Server.

Corporación Universitaria Republicana, Part-time Teacher – January 2020-December 2020
